

Amy Blake is a Project Manager at JM Sorge, Inc. with over eight years of experience in the environmental field. Ms. Blake has conducted and overseen the completion of several soil and groundwater investigations and remedial actions at industrial, commercial, and residential sites. Most recently, Ms. Blake has been managing the remediation of the former Hartz Mountain Site, a Brownfield site in Harrison, NJ. The site will ultimately be redeveloped into a transit village that will include residential and retail components. Remediation at the site is currently ongoing.
