

Elizabeth Limbrick is a Project Manager in New Jersey Institute of Technology (NJIT's) Office of Strategic Initiatives, where she is responsible for providing technical assistance to communities for brownfield redevelopments. Elizabeth provides one-on-one technical assistance to local governments and not-for-profits in EPA Regions 1 and 3 interested in assessing, remediating and redeveloping brownfield sites.

Elizabeth has 18 years of professional experience in the private and public sectors in the development and oversight of environmental remediation and brownfield redevelopment projects. Her public sector experience includes regulatory oversight at the New Jersey Department of Environmental Protection (NJDEP) and her private sector experience includes management a wide variety of projects from UST cases to Superfund projects as an environmental consultant.

Elizabeth holds a Bachelor of Science Degree in Environmental Science from Susquehanna University. She is a co-chair of the New Jersey Society of Women Environmental Professionals (NJSWEP). She has also provided expert testimony to the United States Senate Environmental & Public Works Committee regarding Cleanup Efforts at Federal Facilities.
